The screenshot shows the Scratch 2 Offline Editor download page. At the top, there is a navigation bar with 'Scratch', 'Create', 'Explore', 'Discuss', 'Help', a search bar, and 'Join Scratch'. The main heading is 'Scratch 2 Offline Editor'. Below the heading, a paragraph states: 'You can [INSTALL](#) the Scratch 2.0 editor to work on projects without an internet connection. This version will work on Mac, Windows, and some versions of Linux (32 bit)'. The page is divided into three numbered steps: 1. 'Adobe AIR' with a 'DOWNLOAD' link and a list of OS download links (Mac OS X, Mac OS 10.4 & Older, Windows, Linux). 2. 'Scratch Offline Editor' with a 'DOWNLOAD' link and a list of OS download links (Mac OS X, Mac OS 10.5 & Older, Windows, Linux). 3. 'Support Materials' with a 'GETTING STARTED' link and a list of resource download links (Starter Projects, Getting Started Guide, SCRATCH CARDS).
