App Inventor

Welcome to

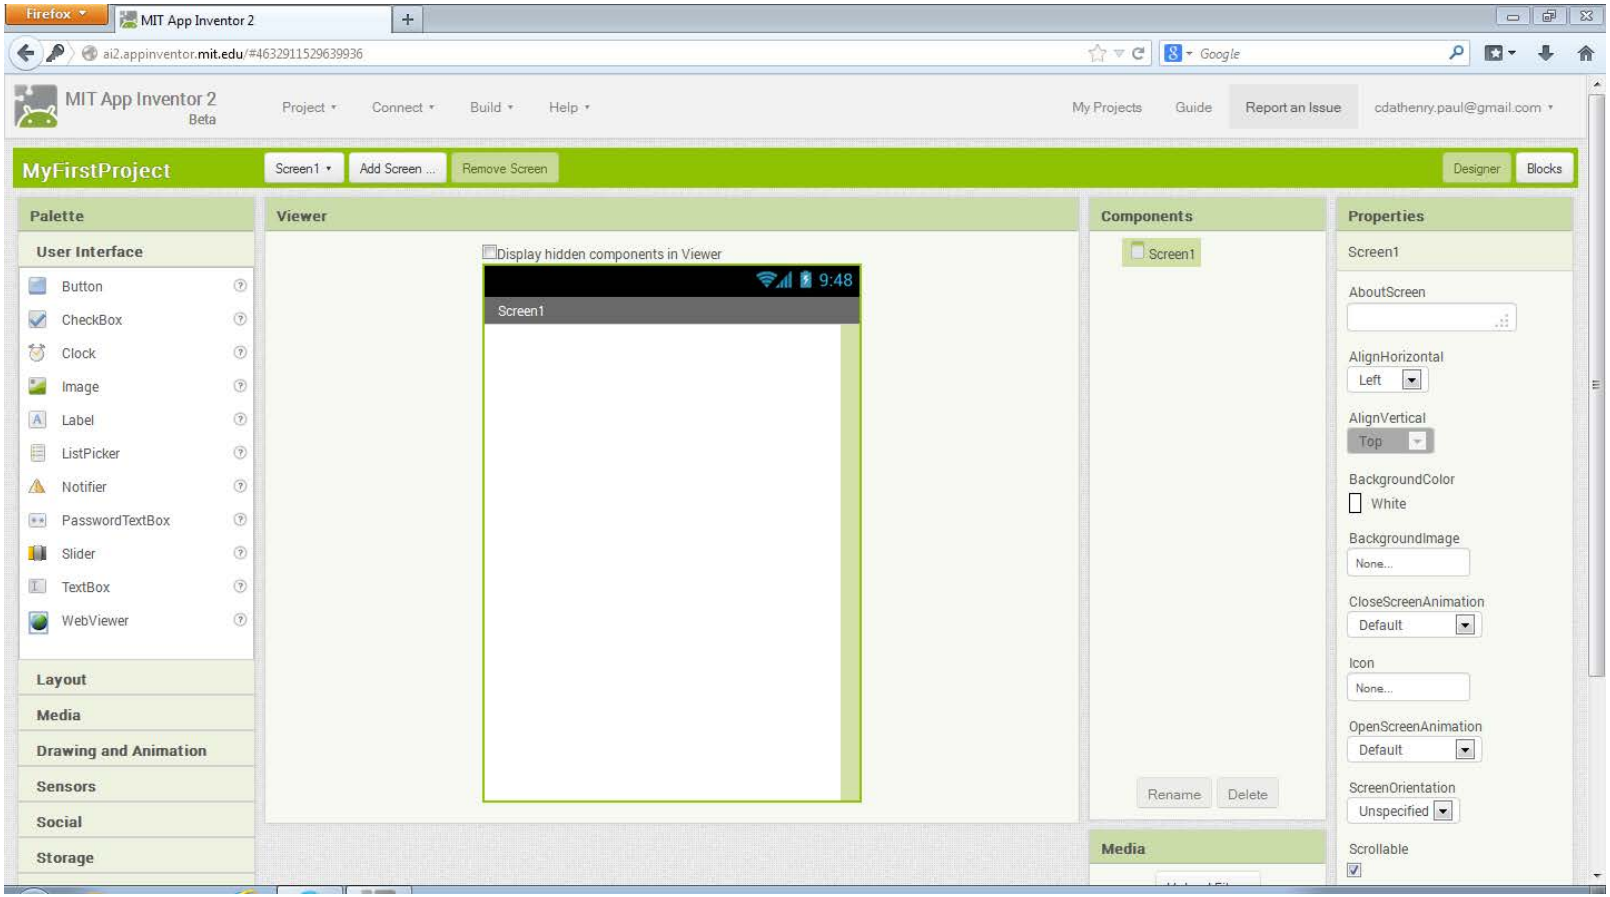
Coder Dojo Athenry

I'm Paul

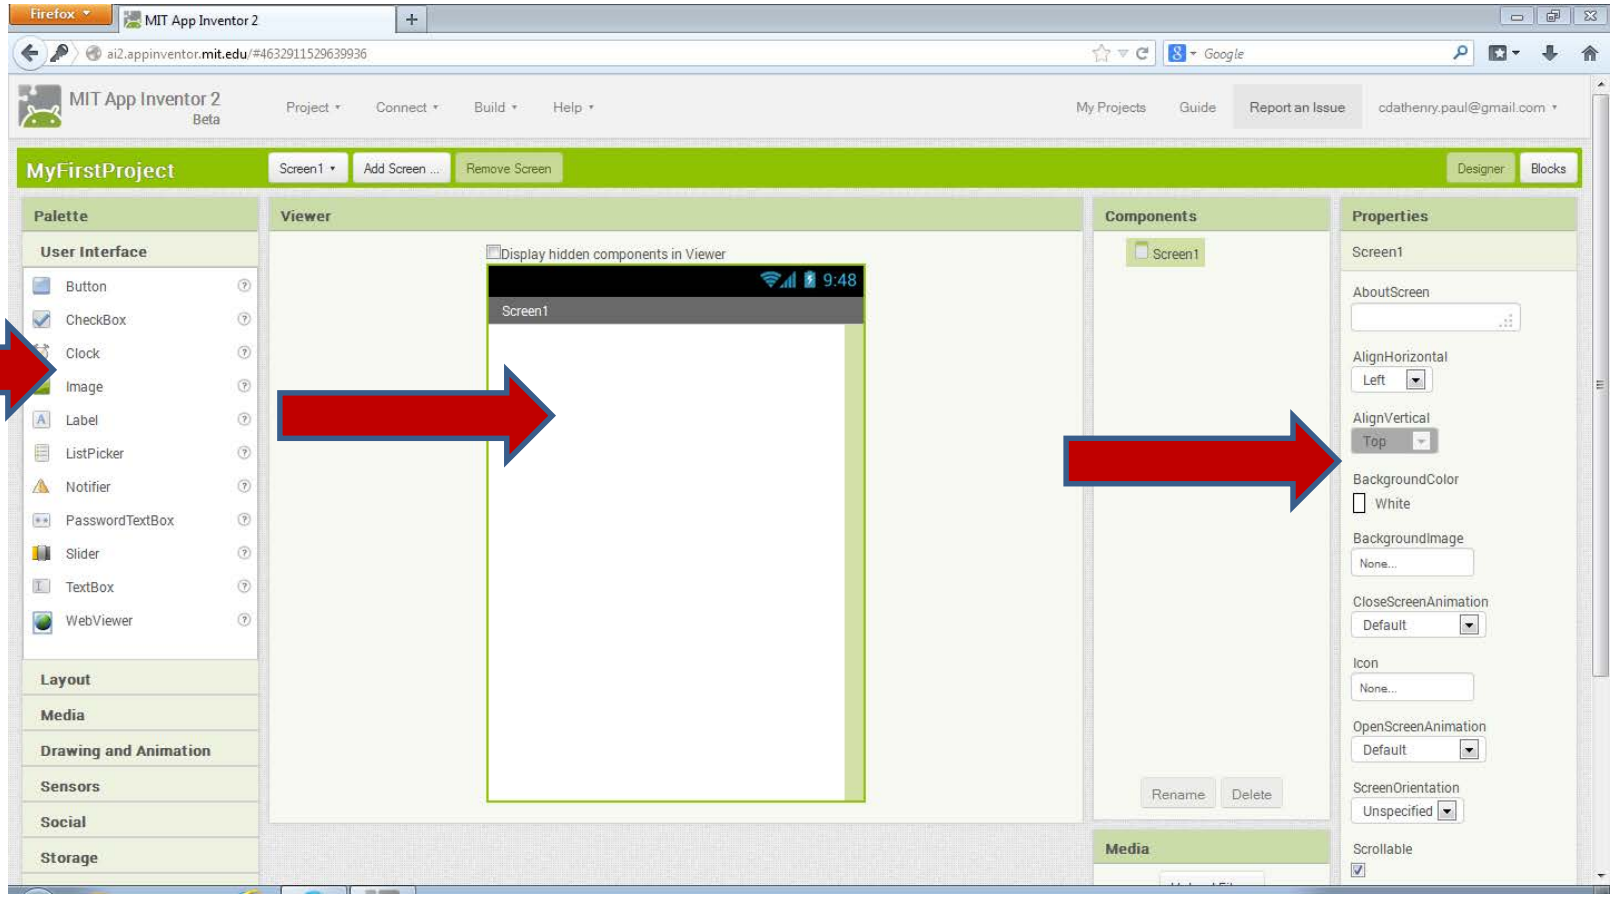
What is AppInventor

- AppInventor is a Web program that allows people to create "*Apps*" that run on *Android* mobile devices
- It was created initially as part of a Google project but is now hosted and maintained by *MIT* (Massachusetts Institute of Technology).
- Same people who give you Scratch

This is AppInventor



Parts of AppInventor



Parts of AppInventor
