

CoderDojo Athenry

Code and notes by Martha Fahy, 2016

CoderDojo Athenry

"Above all, be cool"

Every week:

- ✓ Sign in at the door

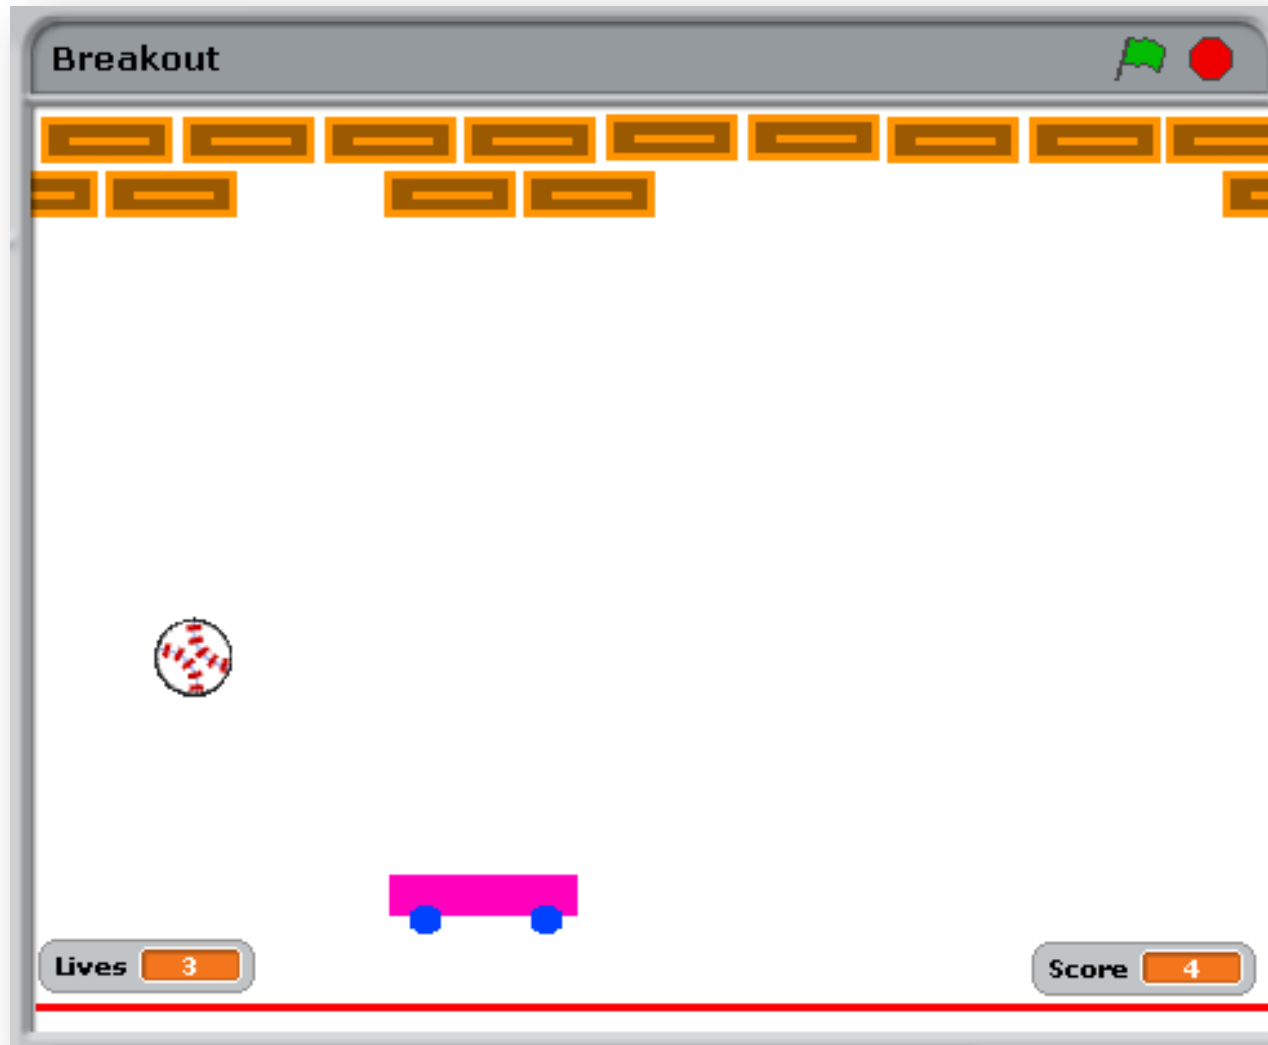

If you are new:

- ✓ Fill in Registration Form
- ✓ Ask a Mentor how to get started

**Make sure you are on the Athenry
Parents/Kids Google Group:** email
coderdojoathenry@gmail.com

Today's Ninja Challenge:

Make a Game Like **Breakout**

Use **Big Ideas** that You Should Understand to Get a Yellow Belt

Making Sprites
Move

Loops &
Decisions

Animation
& Sound

Variables &
Broadcasts

Steps to Make the Game

Make the **Bat** sprite,
write & test code to control it

Make the **Ball** sprite,
write code to make it move & animate

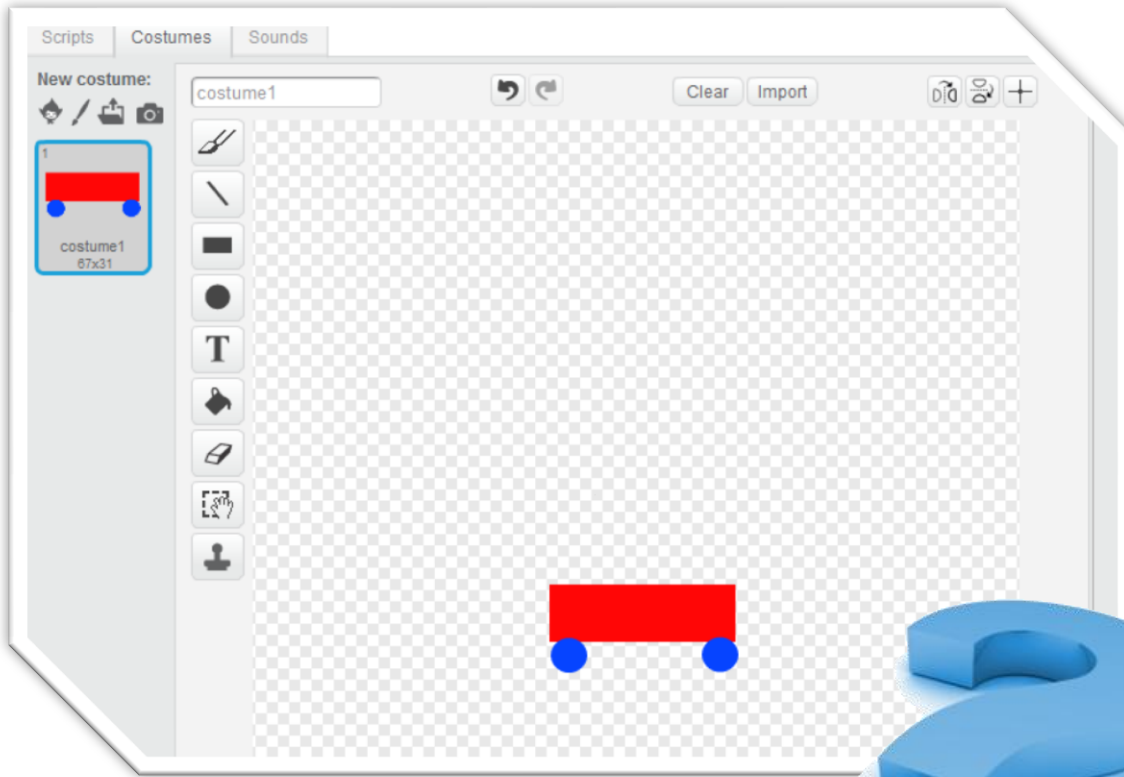

Add an **End Line** and a **Lives** variable;
Lose a live when ball hits line

Make a **Brick** sprite, write its code;
Test it works then **duplicate** it

*Your game will
have slightly
different steps.*

*Get one part
working before
moving on!*

Design the **Bat Sprite** & Code So You Control it

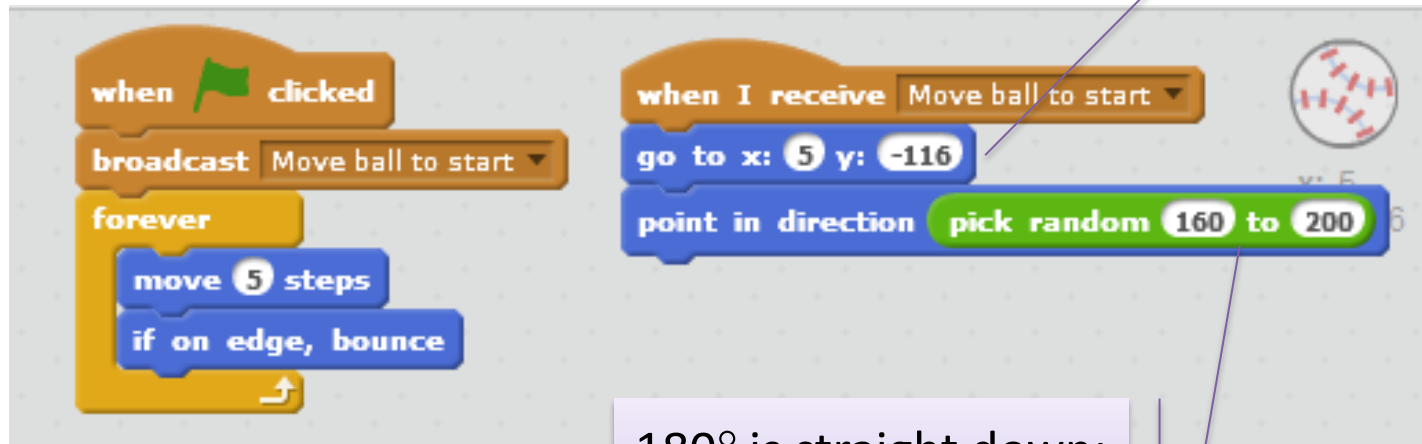

How would you
control it with
arrows instead?

Make the Ball Sprite & Basic Code to Move it

I used a standard image

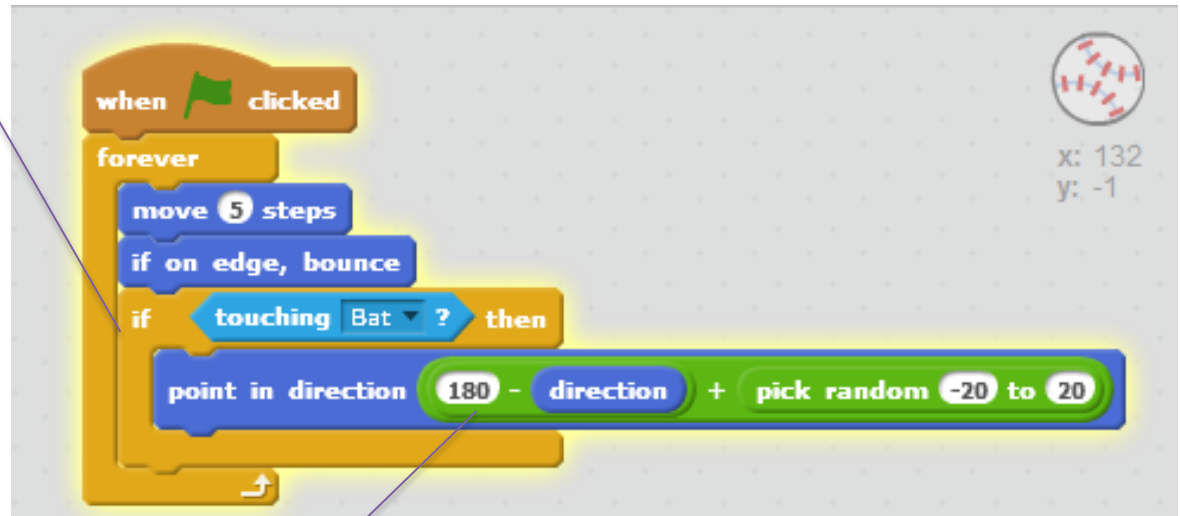

Will use this to reset position after losing a life

180° is straight down:
pick direction in
range 180 \pm 20

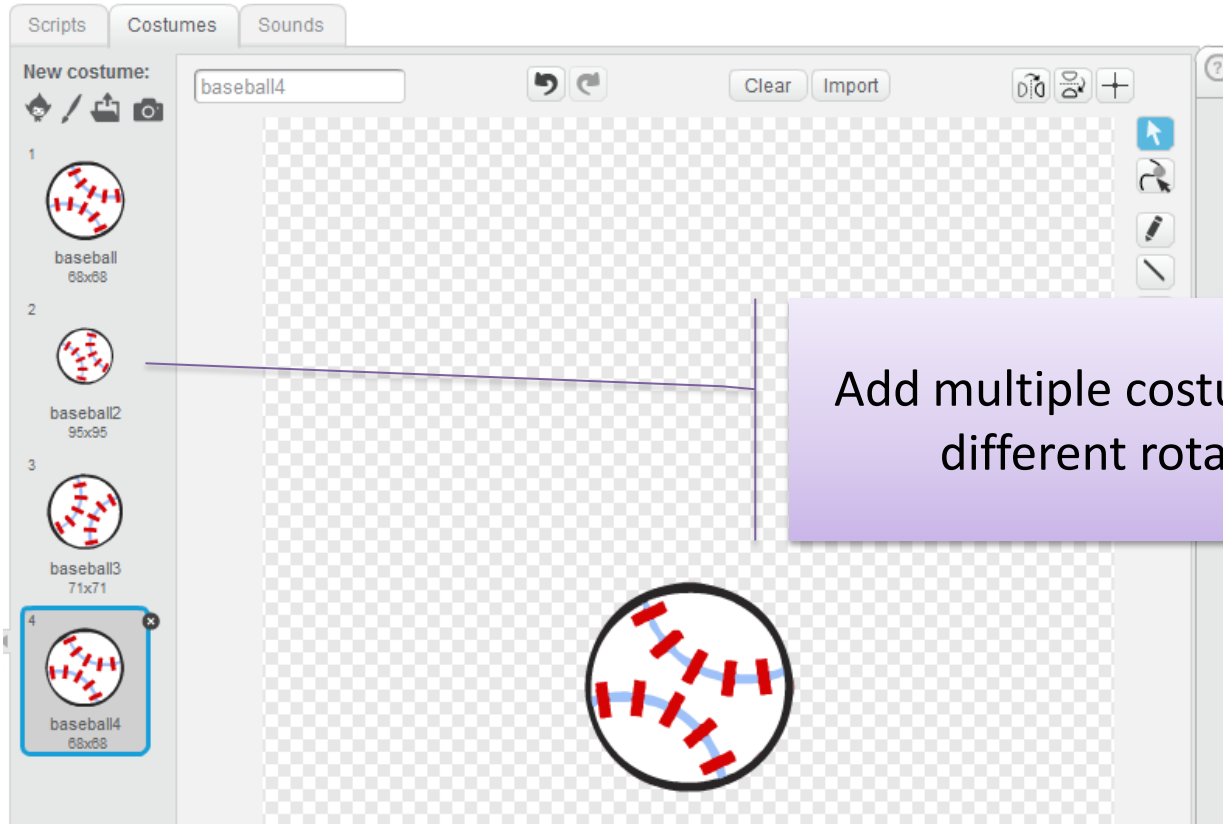

Code for the Ball Sprite to Bounce off the Bat

New block of code to bounce off bat

180° – Direction is opposite direction; add some randomness

Animate the Ball

Add multiple costumes with different rotations

Keep switching between costumes:
how can you do this?

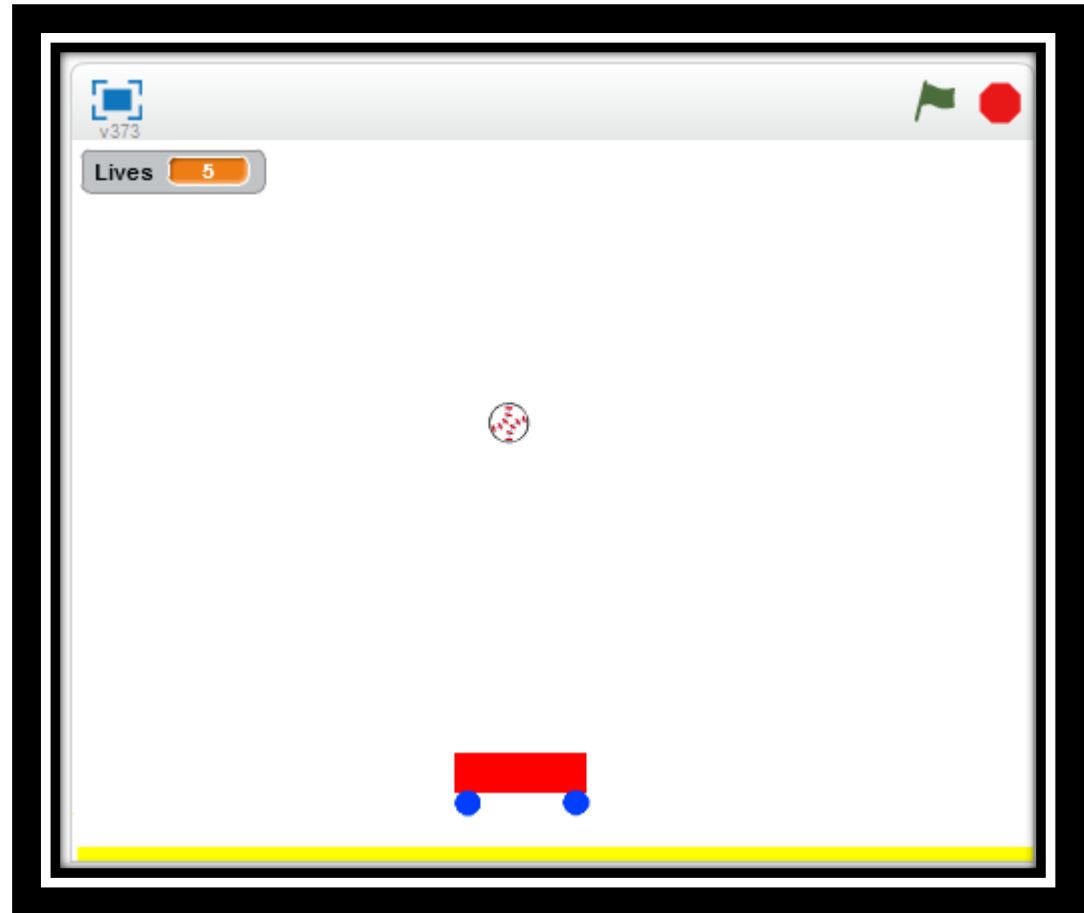

Add an End Line

End Line:
Add Sprite
Or
Draw on Stage

Keep Track of Lives

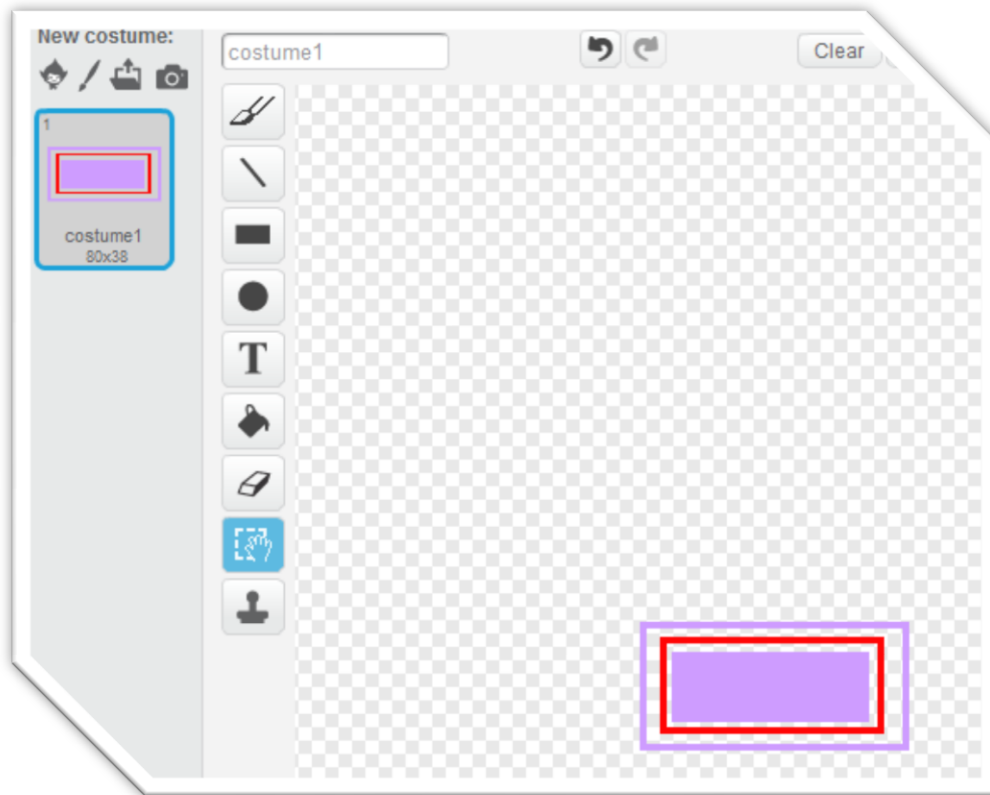

- Variables for Lives
 - Start with Lives = 5
 - Stop if Live = 0
- Reduce Lives by 1
- If Ball touches End Line
- Reset position of ball

Add a Music Loop

Design & Code a **Single Brick**

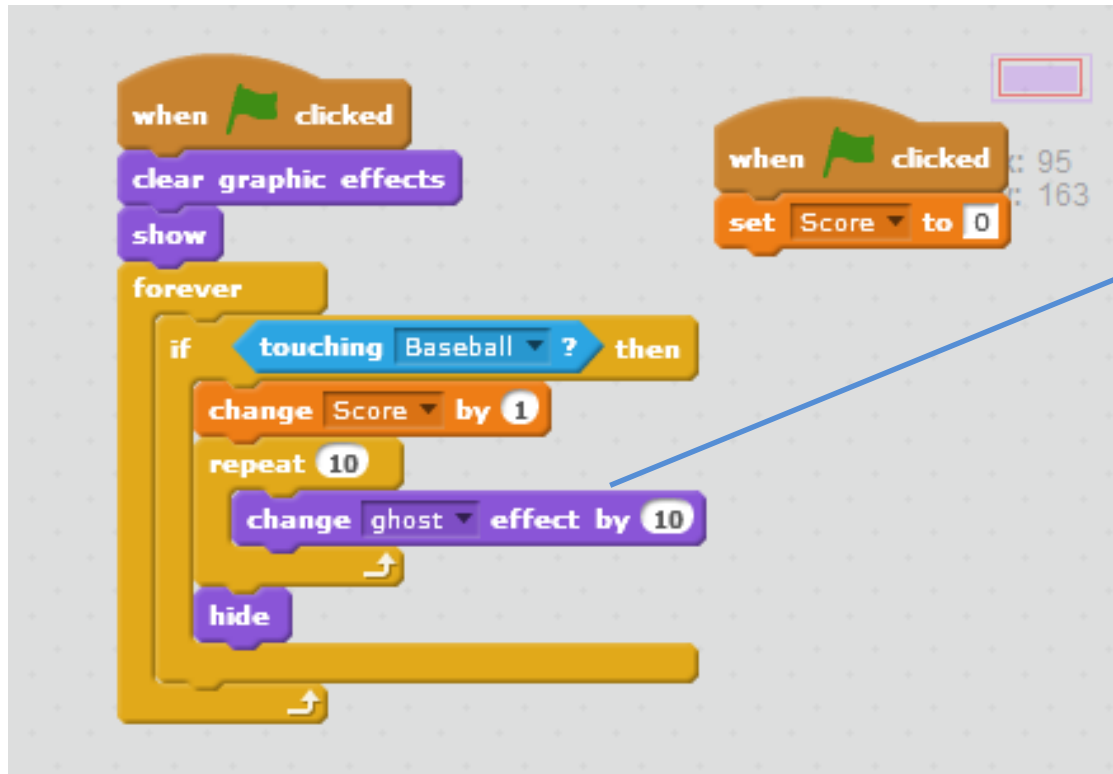

Need a variable for Score

Need code for **Ball** when it receives broadcast:

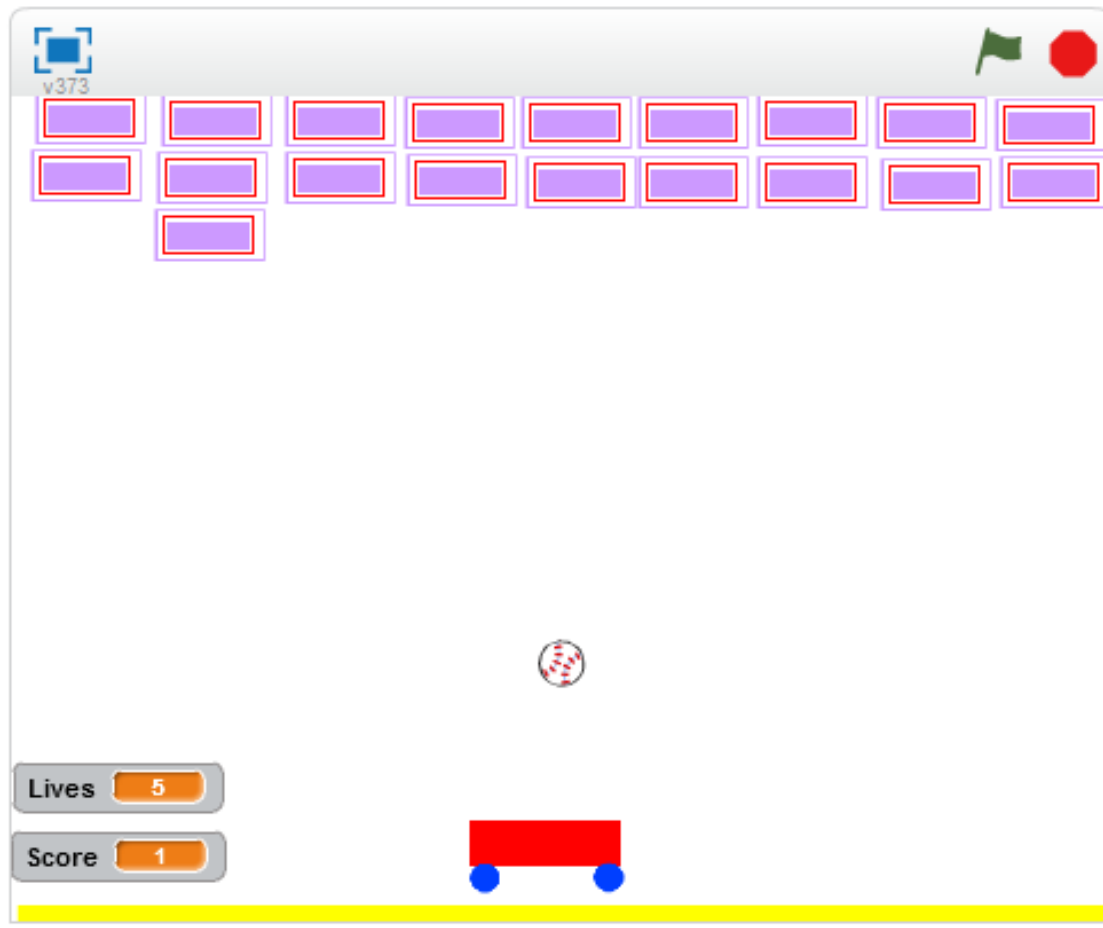

Make a sound effect,
Bounce off brick (copy code for bouncing off bat)

Design & Code a **Single Brick**

Make it fade slowly

Test the **Single Brick** & **Duplicate** it When You're Sure it Works

At the End ...
