Modellers

Looking at 3D content creation

Free-form in style:

Learn techniques

Create own content, individuality encouraged!

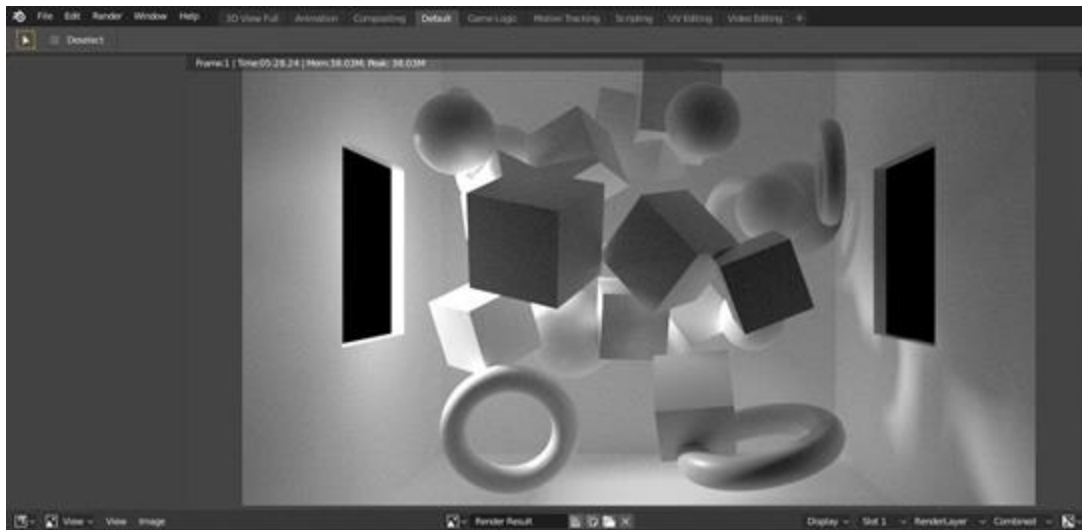

What will we be doing?

Mainly working in Blender 2.90.1, a 3D content creation tool for modelling, sculpting, animation rendering and video editing.

Who's this group for?

Anyone who wants to expand their knowledge of game development skills or anyone who'd like to try something technical that also has an artistic element. Ideally age 12+.

Getting Prepared

You should do the following, if you can:

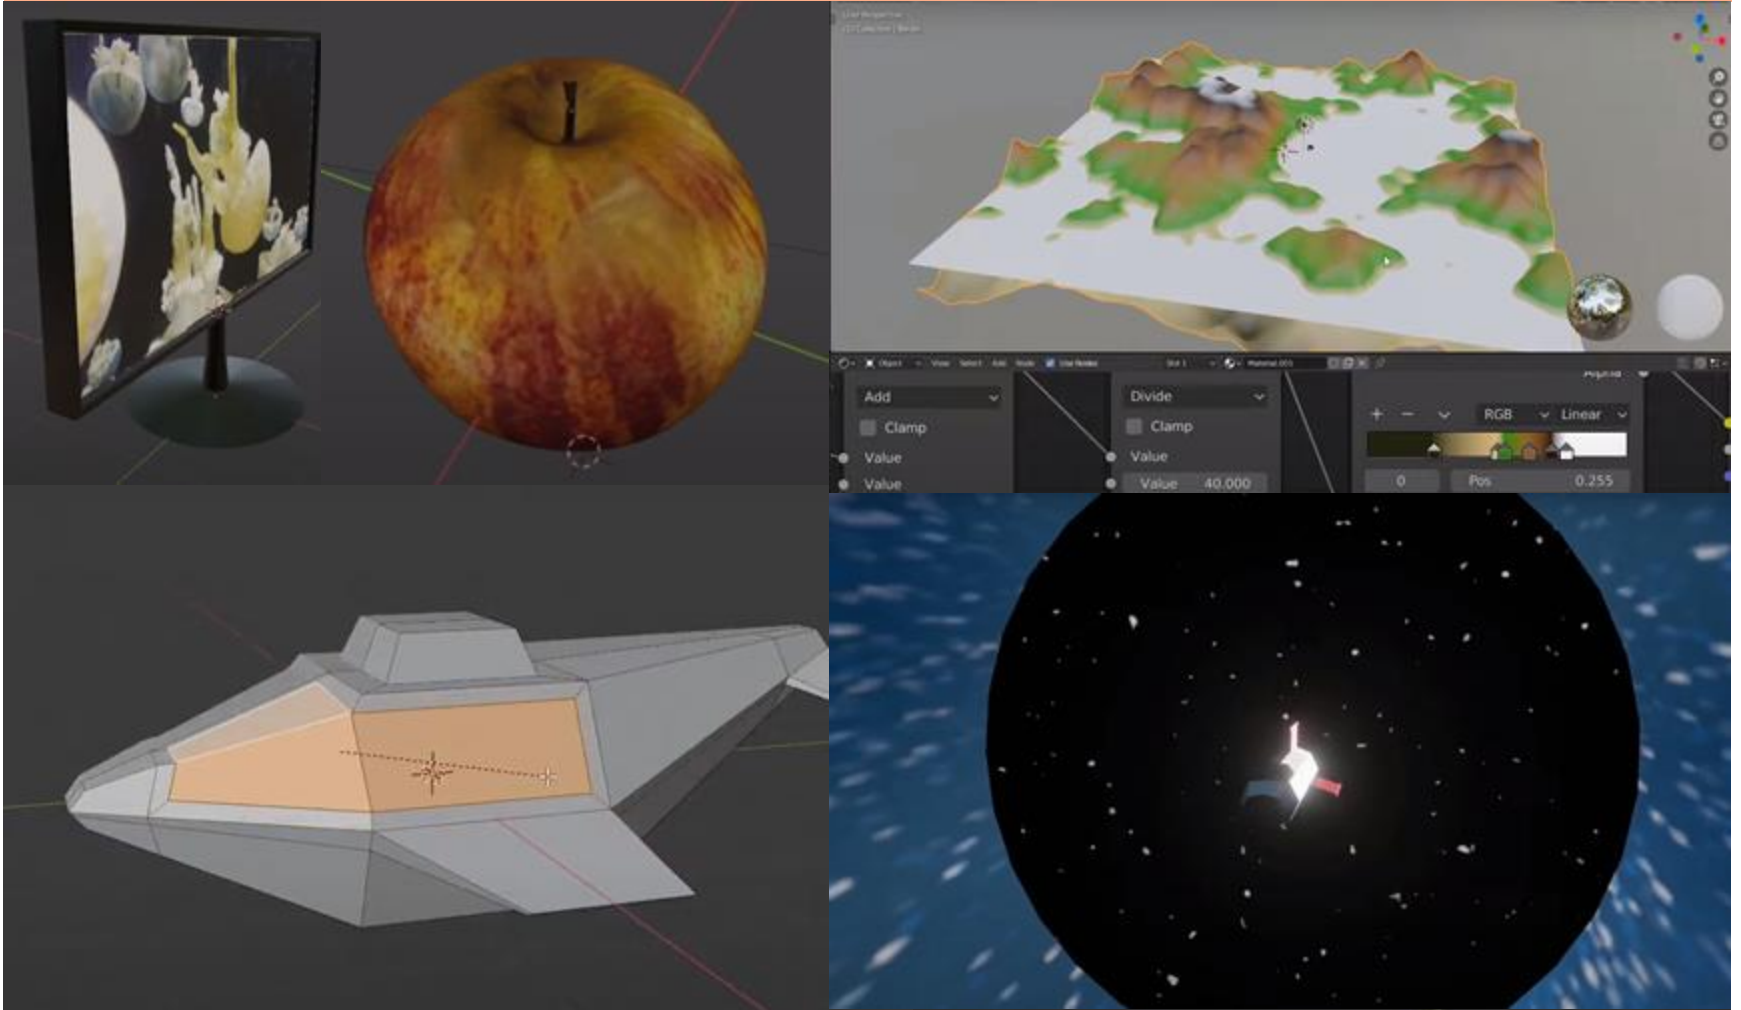

Install Blender (www.blender.org)

Free software!

Bring a scroll mouse if you have one, or contact us if you don't and we can organise one.
