Enter the code Below.

```
WIDTH = 600
HEIGHT = 300

alien = Actor('alien')
alien.topright = 0, 50

def draw():
    """Clear the screen and draw the alien."""
    screen.clear()
    screen.fill((0, 0, 0))
    alien.draw()

def update():
    """Move the alien across the screen."""
    alien.left += 2
    if alien.left > WIDTH:
        alien.right = 0

def on_mouse_down(pos):
    """Detects if alien is clicked on."""
    if alien.collidepoint(pos):
        alien.image = 'welcome'
```
